

REMARKS

With the above amendments, the specification has been amended to incorporate the International and European priority applications by reference. The claims have been amended to delete multiple dependencies and place them in better form for examination and claim 18 has been added. New claim 18 corresponds to the claims as amended in the International Preliminary Examination Report

Accordingly, it is believed that the application is in good condition for examination. The below-signed attorney for applicant welcomes any questions.

Respectfully submitted,
